#### Adjourned sine die.

Members of Council for the present year, namely, W. D. Bennett, Reeve; J. B. Merritt, 1st Deputy-Reeve; Paul Hoffman, 2nd Deputy-Reeve; Alex. McFinn and Wm. Councillors, met at the same place.

At a meeting of the Board of Health, held on the 19th inst., at 9 o'clock a.m., was the day and hour appointed for the collection of the rates.

The speaker said he was also no one could manage it, it was said, as Mrs. Bright, the speaker, a fine looking man with his gentlemanly bearing, and retained a life. He was a powerful orator, and prepared before hand; and his remarks were very good, but he had no more to say, and he was not to be expected to do so.

Union School section No. 22 of Burford and Windham: \$4 was granted to aid Nelson Humby; \$5 to Mrs. Watson; \$5 to William Palmer; and \$25 to Joseph Whitfield to aid Hannah Wrigglesworth.

A by-law was passed appointing A. D. McWilliams, Esq., and E. Yeigh, Esq., auditors, and Wm. Kennedy and James Morgan assessors.

The Council then adjourned to meet on Saturday, 31st February next, at D. Conklin's Hall, at 10 o'clock a.m.

**MORE TRAINS.**—By the time table in force on the Hamilton & Northwestern Railway, a new and quick passenger service has been opened up between that city and Brantford, Stratford, Goderich, &c. Trains now leave King street, Hamilton, at 7:45 a.m. and 12:30 p.m. for these and all other points on the Buffalo & Lake Huron Division of the Grand Trunk Railway. Two trains also leave these stations twice a day for Hamilton, reaching that city via H. & N. W. R., at 12:30 and 8:20 p.m. Passengers by this route can depend on reaching their destination without delay and by the advertised train, as, in the event of the trains of either Company being late, the other will wait a certain time at Caledonia Junction in order to ensure connection.

**MECHANICS' INSTITUTE.**—We would again call attention to the advertisement in our columns regarding the opening of our Mechanics' Institute on Saturdays as well as Wednesdays. A visit to the rooms is enough to show how energetic the Directors are in purchasing the latest works in every department of literature. Every new book of merit is added as soon as published, while all the principal reviews and magazines are to be found on the shelves. And yet in spite of all such efforts, will it be believed that in a town of 10,000 inhabitants there are only 150 subscribers to the Mechanics' Institute! Such is the fact. Every employer in town should see to it that his young men are members. 4 cents per week, or \$2 per annum, in all that is asked for the privileges of the Institute.

**END OF THE REVIVAL.**—Though the regular revival operations of Moody and Sankey in Philadelphia came to an end last Saturday night, it was not on account of any diminution in the popular interest. They might, so far as attendance was concerned, have been carried on—we cannot say how long.

There never before were such audiences at any continuous meetings of any kind in this country, and never before, in modern times, until recently, in any other country. Think of several meetings each and every day, day after day, for a period of over eight weeks, with audiences of thirteen thousand people crowded into the huge railroad depot. We do not recall anything so remarkable in the history of modern revivalism. We hear that, in the closing days of their operations, as many as twenty thousand people repeatedly besieged the depot, drawn there by two men who possess few of those attractions that ordinarily attract upon the multitude; for it must be remembered that Mr. Moody's ways are unexciting, that his speech is plain, and that he offers nothing in the way of novelty. There were two hundred and forty-eight services during the eight weeks of the Philadelphia revival, and the attendance at them ran up to nearly 900,000—without counting those who did not get in. The revivals will soon make their appearance in New York. The Hippodrome, as it is to be reconstructed, for their services, will contain two halls, each less than half the size of their building in Philadelphia.

**RUMORED CHANGES ON THE G. T. R.**—The following changes, it is rumored, will be made on the G. T. R. forthwith: Mr. Moody, the first of the Board, will be transferred

since his adventing to the Port people has caused quite a fluttering among the marriageable young ladies of that quiet village. Latterly, however, his affections seemed to have centered upon Miss Maggie Campbell, a young lady about 17 years of age, who enjoys the respect of all who know her. Young Costello, in due process, proposed marriage to Miss Campbell, was accepted, and Wednesday, the 19th inst., at 9 o'clock a.m., was the day and hour appointed for the wedding.

#### MONTREAL.

MONTREAL, Jan. 21.—A meeting of the sub-contractors of the M. O. & W. R. R. was held yesterday, with the view of petitioning the Local Government for payment of their work. The meeting was adjourned till Tuesday. These men have waited patiently for the money due them for over nine months, and the delay has occasioned great loss of time, and considerable inconvenience.

Victoria Rifles' annual ball held last evening was a great success.

A man named Cote was frozen to death on the ice yesterday. He was coming to this city from Laprairie.

#### FROM TORONTO.

TORONTO, Jan. 21.—The Mercer case will probably end to-day. From the expressions of the Vice-Chancellor it is generally expected that a judgment in favor of the Crown will be rendered, on the grounds that the entry in the priest's book is a forgery.

A social demonstration is to be held at the Albert Hall this evening in commemoration of the union of the British and British American Orders of Good Templars. Vice-Chancellor Blake will preside.

The temperance people here, though hoping that the Treasoner's License Bill is only one preliminary step in the right direction to be followed by others, express themselves as satisfied with its main provisions. Some of them, however, seem to think that saloon licenses should have been abolished altogether.

TORONTO, Jan. 22.—A mass meeting of temperance people is to be held to-night to consider Mr. Crooke's License Bill.

The Clements case was concluded about noon. The counsel addressed the jury at considerable length. The Judge's charge was brief. He told the jury there was no evidence to convict the prisoner and that Davis' evidence was not reliable. The jury returned a verdict of "Not guilty." The prisoner burst into tears as the words dropped from the foreman's lips. As he went out of the court room he received the congratulations of his friends. A murmur of displeasure ran through the court at the finding of the jury. The Frazor case comes up Wednesday.

The weather is cold and snowing.

CHICAGO, Jan. 21st.—A special meeting of the Town Council was held last evening at the request of a petition from the Workingmen's Temperance Association to draft a by-law to be submitted to the ratepayers for ratification, raising the liquor licenses from their present rate to \$400. The petition was signed by every member of the association then present, and a resolution was passed by the Council that a by-law be submitted to the electors, by vote on February 14th; whether the licenses be raised to \$400 or remain at \$100.

CHICAGO, Jan. 21.—A saw mill at Le Grande, Ind., exploded yesterday afternoon. Wm. Kennedy, one of the owners, was instantly killed, and Wm. Price, the other owner, was seriously hurt. A Sebastian Goss and Corbett were also killed, and a little son of Kennedy's badly scalded. J. M. Patterson, Insurance Agent, was within the mill to insure it when the explosion occurred. He was uninjured.

### The Ancaster Stabbing Affray.

Yesterday, O'Neill, the farmer from Ancaster who stabbed his wife with a butcher's knife, was arraigned before Judge Smart, and pleaded "not guilty" to the crime of cutting and wounding Elizabeth O'Neill with a butcher's knife. Mr. B. B. Waddell, County Solicitor, appeared for the prisoner.

O'Neill elected to be tried by a jury, and was consequently remanded to jail to await the next Assizes.

### The Hamilton and Northwestern.

#### THE ROUTE TO THE BEACH.

The route of the Hamilton and Northwestern Railway to the Beach has now been decided upon, and Messrs. Staunton and Franks, Provincial Land Surveyors, are now engaged in staking out the land to be used for the track as required by law. The station and freight sheds are to be on the corner of Ferguson avenue and Barton streets, and the track is to run one hundred and fifty feet south and parallel with Barton street, cutting through the market gardens in the east end. The track will cross the Great Western Railway about two miles from this city, and will continue in a direct line to the beach. As soon as the land surveys get through with their duties the first sod will be turned and work commenced. This will probably be very soon, and will furnish work for those out of employment, and no excuse for the vagrants who daily ask to be sent to jail because they cannot get any work.

### Destructive Fire.

#### A DWELLING HOUSE BURNED.

This morning about 3 o'clock a fire broke out in a vacant cottage on Queen street south between George and King, belonging to Mr. Grenville, of the G. W. R. shops. The fire raged with great fury, and the flames were distinctly visible from the hill this side of Dundas. The alarm was sounded the instant the flames were discovered, and the firemen were on the ground in an extraordinarily short time, and by their determined efforts prevented the flames spreading to the surrounding buildings. The property destroyed was valued at \$1400, and was insured for \$800. The origin of the fire remains a mystery.

**THE CALEDONIANS.**—Last evening two four-horse sleighs, loaded with members of the Caledonian Assembly, left the Bevers House, on King street east, for the Elgin House, Dundas. They arrived there safely, and the ball-room was cleared for dancing, which was kept up till half-past twelve, when the company adjourned to supper, got up as Col. Jones stowed so well known how. After supper Olanman Mathieson danced "Gillie Callum" and the Highland Fling in full Highland dress. Dancing was kept up till 4 o'clock, when the company re-entered the sleighs for the purpose of returning home. It was raining very hard, and when about half way home the sleighs broke down and

### Presbytery of Hamilton.

The following report was crowded out of yesterday's issue:

At Simcoe an important meeting of this Ecclesiastical Court was held pursuant to adjournment, on Wednesday, the 9th inst., for the purpose of disposing of certain overtures, ancient amalgamation. In this town there has hitherto existed two distinct Presbyterian congregations claiming connection respectively with the late Canada Presbytery in Canada. The late stated pastor for the latter has enjoyed the many years of the venerable Presbytery, the Rev. Mr. United, the two would be compact congregation. This arrangement Mr. Lewis is not yet dim, nor has he voluntarily, and withdrawn from the pastorate of the Church. A similar arrangement completed at Lynce, associated with Simcoe, resigned his charge. He appointed a Committee in a minute of their high appreciation and sacrifice.

The amalgamation, on mutual request, was then officially sanctioned by the Presbytery of Norfolk street Church and St. Andrew's Church congregations, to bear in future the designation of St. Paul's Church, Simcoe, and of Lynceoch and Silverhill, which will add to the list of vacancies a most eligible field of labor.

A request for moderation in a call was then prepared by the united congregation of Simcoe, and granted.

The Rev. Mr. McNeill, formerly of Mount Forest, is likely, we understand, to be the first minister of St. Paul's Church. It may be mentioned that the congregation under the pastorate of Mr. Livingstone have the thoughtfully voted to him the use of the manse during life, as well as a small annuity.

The Rev. D. H. Fletcher submitted, on behalf of the Committee appointed at a former meeting to draft a resolution in connection with the translation of the Rev. D. D. McLeod to Paris, submitted the following, which was unanimously adopted and ordered to be engrossed:

"This Presbytery cannot part with Mr. McLeod without putting on record its sense of the high place which, by his diligence, ability, and Christian zeal and bearing, he obtained for himself, and held with increasing strength in the estimation both of his brethren in the presbytery and of his congregation, during his useful and successful pastorate within the bounds. The brethren would also gratefully acknowledge the valuable services which Mr. McLeod has rendered as a member of the presbytery, by the regularity of his attendance at its meetings, by his counsel, and by the readiness and efficiency with which he discharged whatever duties were laid upon him by the presbytery while expressing sympathy with the congregation of Ancaster and Barton, in losing an affectionate, able and efficient pastor, and their sincere personal regret in parting with Mr. McLeod, the brethren rejoice that he has been called to occupy a more prominent and enlarged sphere of usefulness, where they hope and pray he may continue to enjoy the presence and blessing of the Head of the Church, and be increasingly useful in the work of the Lord. They would follow their beloved brother with earnest prayers for the spiritual and temporal welfare of himself and family."

The Rev. J. O. Smith read a memorial ancient church property at Niagara, and after full consideration the prayer of the memorial was granted.

Some other routine business engaged the attention of the Court during the afternoon session.

Although extending over four hours, and although the business transacted might be supposed to be more than ordinarily complicated, nothing could have exceeded the harmony and outspoken frankness which characterized the deliberations throughout. The meeting was presided over by the Rev. A. Grant, B. A. of Oneida, the Moderator, and the Rev. W. Craigie as Clerk pro tem.

The meeting adjourned to meet again at

### A Disputed Will Case.

A SIMCOE NEGRO AND NEGRESS PUT IN THEIR CLAIM.

THE ESTATE VALUED AT \$250,000.

The Ward, Singer and other will cases, which have been before the Courts on the other side of the lines, are about to be eclipsed by a suit in the Surrogate Court of the State of New York, on a motion for an accounting in the matter of the estate of the late John D. Lewis, at one time a prominent merchant of New York city. In the Supreme Court of the same State are also pending two actions on the part of the brother of Lewis to set aside and annul his will. The plaintiff in these actions to set aside the will is a negro, living in Simcoe, Ontario. The story of the late Mr. Lewis' birth, ancestry, and life is strangely romantic and interesting. Although supposed by all who knew him to be a white man, he bore traces of negro or Indian blood. Even to his most intimate friends he never made known his history, and on occasions of suits in court, when he was questioned as to his former life, his invariable reply was that he had no relatives living. About a year and a half ago he was thrown from a carriage in the New York Central Park and killed, leaving by his will, which he had himself drawn, an estate valued at \$250,000. Among the property left by Lewis were some 40 lots in various parts of New York city, largely in Greenwich and Hudson streets, and in the upper parts of the island on the east side of the city, on all or nearly all of which were either buildings for manufacturing purposes or houses occupied by tenants, some of them being large tenement houses. The property was considered to be of very great value. The will was pronounced worthless by some of the most eminent lawyers, who gave it as their opinion that it could be set aside in case a relative of the deceased merchant could be found to attack it in court. A lawyer who happened to hear Lewis say that he had come from Toronto made strict inquiries into the antecedents of the deceased merchant, and discovered in the person of Henry Lewis and Mary Smith, a negro and negress living at Simcoe, Ontario, the brother and sister of Lewis, the issue of a slave marriage, on whose behalf he now contests the will. The father of Lewis was a white man, a prominent resident of Simcoe.

### Testimonial to Miss Rye.

[Montreal Gazette, 9th inst.]

On the occasion of the late passage of the S. S. Martinian, Capt. Dutton, from Portland to Liverpool, Miss Rye, who was one of the passengers, was presented with a purse of money—£28 10s.—in aid of her work in relieving poor children in England from misery and destitution and taking them out to the British North American Provinces, where at Niagara she has a home provided for them, preparatory to their distribution among respectable people in Canada.

In receiving the benefaction thus so generously contributed by the passengers, Miss Rye feelingly acknowledged the gift as an encouragement as well as a providential aid, inasmuch as funds were urgently needed to enable her to carry on her work, and she remarked that this was the first time in all her many passages across the Atlantic that such tangible support under similar circumstances had been extended to her mission work.

Such an expression of the benefit derived by Canada as well as Great Britain from Miss Rye's work having been so earnestly given, several gentlemen present some of whom are members of the Provincial Parliament, conceived that it would be beneficial to the interests of Canada generally, if the embodied their views in a concise testimonial, to be forwarded to the representative Governments of the Dominion, asking that the effort which Miss Rye had been making, and the benefits derived therefrom should be recognized, and praying that suitable pecuniary concession be generously made available in the future, and support of her great work, and they resolved that this testimonial should be accompanied by the preamble, and be as follows:—Whereas Miss Rye had now been for six years engaged in gathering up the poor, helpless destitute children of England, and otherwise, in all human probability, would be left to a life of sin and misery, and tending to them a mother's care, bring-

SPECIAL MEETING.

CONSIDERATION OF THE LICENSE BY-LAW.

A special meeting of the City Council was held last evening in the City Hall. Present: His Worship the Mayor in the chair; Aldermen Kilvert, Mathews, Morgan, O'Reilly, Crooker, Mathews, Waddell Campbell, Lockman, Kent, Fitzpatrick, Chisholm, Magee, Lee, Crawford, Barr, Humphrey, McLehlan and Field.

THE LICENSE BY-LAW.

His Worship said that he had called a special meeting, by request of several Aldermen, to consider several reports and the license by-law.

Moved by Ald. Kent, seconded by Ald. Barr, that the mover be allowed to introduce a By-law on Tavern and Shop Licenses, and that the same be now read a first time. Carried.

Moved by Ald. Kent, seconded by Ald. Mirchall, and Resolved.—That the By-law on Tavern and Shop Licenses be now read a second time in committee of the whole. Carried.

His Worship requested Alderman Barr to take the chair.

Ald. Chisholm moved that the sum of \$75 be added to the license fixed by the Government.

Ald. Matthews hoped that the worthy Alderman would not press the matter to-night.

Ald. Chisholm said that now was the proper time to consider the subject, so that the people would not be left in the dark as to the intention of the Council.

The Mayor said that many people had been laboring under a mistake. It was supposed that 75 licenses could be issued, but the Government had fixed them at 68.

Ald. Waddell said it would be well to fix the rate at such a figure as to keep up the revenue as in past years.

After some further discussion it was decided to leave the consideration of the by-law to the next meeting of the Council Feb. 28th.

PETITION.

A petition was read asking for a sewer on Elgin street from Wilson to Barton streets.

THE DUNDAS PEOPLE AGITATE FOR THE ROUTE OVER THE HEIGHTS.

A large number of influential men of Dundas intend holding a meeting as soon as the proper arrangements can be made, for the purpose of discussing the advisability of petitioning the Company to have the H. & N. W. R. run over the Heights. They contend that the course will be more direct and much cheaper in the end, and that it will be of greater benefit to Hamilton, as although the principal buildings and freights are to be erected in Hamilton, still lumbermen and grain merchants will make Wellington Square their shipping place. More than that that the erection of a railway bridge over Desjardins' Canal will ever be a source of annoyance, as in the case of a heavy swell from the east and a vessel coming in she would have to forge ahead, and should a terrible disaster might be the consequence. The approach to the canal from the lake is none of the best, and a heavy vessel beating outside with the wind high and the swell heavy, the annoyance at the station would be extreme in holding trains in check for the craft to pass through. The idea of the Dundas people is to run the track out of Main street, Dundas, across Binkley's Hollow and through Dundas at the head of Desjardins' Canal.

Terryberry vs. Kemp.

A SHEEP KILLING CASE.

One of these painful sheep killing cases that cause so much annoyance and are so hard to prove, came up at the Police Court this afternoon at 3 o'clock, and is being investigated as we go to press.

The circumstances of the case are, that on the evening of Friday last Jacob Terryberry a resident of Glanford, had six valuable sheep killed by dogs. Suspicion pointed to a Colley dog, the property of John Kemp, a farmer in the neighborhood. Terryberry complained to Kemp, and demanded that the dog be killed, and asked Kemp to pay for the sheep. Kemp replied that his dog had been tied up all night, and for five days before the sheep were killed, and refused to kill the dog or pay for the sheep. Terryberry, who was positive that the dog had killed his sheep, placed his case in the hands of Mr. B. E. Waddell, and the case came up for trial this morning, but was postponed for

GREAT BRITAIN.

LONDON, Feb. 22.—The Paris correspondent of the Times reports that the returns so far received show the election of 234 Republicans of all shades, 61 Monarchists, 55 Bonapartists, and 97 candidates whose opinions are not precisely known. In 93 districts there has been no choice, and fresh elections will be held next Sunday. It is very probable that of 83 seats yet to be filled, and 97 occupied by persons whose opinions are unknown, the Constitutionists, Monarchists and Bonapartists will have a much larger share than the Republicans. It is estimated that when all elections are held, the Chamber of Deputies will stand about as follows: Republicans, 280; Bonapartists, 100. Remains of various Monarchists and Constitutionists shades.

Jules Ferry is elected in the Vosges. It is believed a second election will be necessary in Ajaccio, as neither Prince Napoleon nor M. Rouher have an absolute majority. Buffet polled at Mifecourt 7,970 to 8,868 for his opponent, and at Castelsarrasin he received 8,974 and his opponent 9,654 votes.
