

—Sle of that, here.

—The City Council sat for over five hours last night; big talk and little business were the distinguishing characteristics of the session.

—The suspension of navigation is now near at hand. Saturday, December 6th, is the day appointed for officially closing the canals.

—The *Czar* has an income of \$25,000 a day, which is as much as many a hard-working newspaper man can earn in a week. Such is justice.

—"I am astonished, my dear young lady, at your sentiments—you make me start!" "Well, sir, I've been waiting for you to start."

ITNW RESPONSE TO LAWSUIT BY THE CITY RE AMALGAMATION

H3 25 Nov 1879

—A pretty girl told her beau that she was a mind-reader. "You don't say so?" he exclaimed. "Can you read what's in my mind?" "Yes," said she; "you have it in mind to ask me to be your wife, but you're just a little scared at the idea." Their wedding cards are out.

—Here is the latest production of Mr. G. Washington Childs, the Philadelphia obituary man:

Let me see the crimson garters
That belonged to little Mose,
He is gone, but little Mabel
Wears them with her striped hose.

—A young lady who had been married a little over a year wrote to her mother-of-fact old father, saying: "We have the dearest little cottage in the world, ornamented with the most charming little creepers you ever saw." The old man read the letter and exclaimed, "Twins, by thunder!"

REASONS.

—She never will crown with her earnest love
The life of some honest, loving man,
For she kindled the fire in the kitchen stove
With the lightning tilt of the kerchief on her can.

And he—his work has been laid away
Almost before it was well begun;
For he didn't know, they would burn him away,
There was any load in the empty gun.

—A painful accident happened to a young daughter of Mr. Peter Wright, No. 100 Wellington street, on Saturday night. A spark from the fire ignited her dress, which was speedily in flames and the girl's limbs were badly burned. Fortunately the fire was extinguished before further injury was done, and Dr. Rosebrugh was sent for and attended to the sufferer.

THE BLAKEITE GRIT.

(From Grit, Nov. 22.)

Written by Mr. Blake, and designed to encourage independence of thought and action in the lower branches of the Service.
The Blakeite Grit is a soaring soul,
As free as a mountain bird,
His energetic fit should be ready to resist
A dictatorial world!

His views should veer and his vote should change,
His words should shift, and his hopes should range,
He should sit very loose from his colleague's slow,
And his fist be ever ready for a knock-down blow.

His eyes should flash with Aurora fire,
His brow with scorn be wrung,
He never should bow down to an editorial-frown
Or the fang of a tyrant tongue.

His lines should grow and his faith should soar,
His promises be many and his actions more,
His thought should expand and his hopes portend,
And this should be his customary attitude
(Squaring up at G. B.)

LOCAL ITEMS.

THE NAUTILUS DINNER.—This affair next Thursday evening promises to be very pleasant. Edward Hanlan, the champion, will be present.

THE LIBERATES.—There were two representatives of this class at the Police Court Monday morning. Thos. Patterson was fined \$2 and costs, and John Patterson \$1 and costs.

RECOVERING.—Mrs. Tabbs, the unfortunate woman who was injured by an engine on the

crossing from Duncan's bookstore towards the City Hall.

ST. THOMAS LITERARY SOCIETY.—The regular weekly meeting was held last evening, the attendance being good, and the Rev. W. B. Curran, President, presided. After a reading by Mr. W. N. McMullen, Hood's "Song of the Shirt" was read in competition by Messrs. Blandford, R. E. Evans, T. Baker, C. Clarke, W. Acres and C. Powis. Mr. Acres was awarded first place by the President. After an impromptu debate upon the subject: "Was the British Government justified in the arrest of the Irish agitators, Davitt, Daly and Kellen," the President made a few remarks touching

and chair in wild confusion mingled their. The horses fortunately following the example of the wheel, forsook the conveyance and stood contemplating the wreck, from which one by one a human being was dragged some what after the manner of the animals emerging from the ark. When all were safely again on terra firma, it was ascertained not a bone had been broken, and beyond bruises innumerable and heads that would have puzzled a phrenologist to decipher, no personal damage was done. Among the victims were Mr. Cook, of Beamsville, Mr. T. B. Henry, Miss Miller and Miss Zimmerman. The bus is undergoing repairs at present, which it is to be hoped will ensure the safety of future passengers. If still inclined to prove fractious, however, we would advise oil and argument to be applied freely to the wheel.

SHANDY MAGUIRE.

An Evening at St. Patrick's Hall.

A very large and appreciative audience assembled in St. Patrick's Hall last night to witness the entertainment given by the Dramatic Club. The evening was opened with an interesting Italian drama, entitled "The Brigand and his Son," in which the parts were on the whole very well carried out. The principal play, however, was "Shandy Maguire," an exciting Irish drama. Shandy, the principal part was taken by Mr. J. B. Neiligan, who did it complete justice and manifested a wonderful talent for acting. Throughout the whole piece his appearance was greeted with expressions of the greatest delight. Old Connor, a miser, by Mr. J. Byrne, and Mary, his daughter, by Miss M. Sanders, were exceedingly well represented, and reflected credit on the actors. The other parts were all well taken, and sustained in a creditable manner for amateurs, and, indeed, the whole performance was apparently enjoyed to a high degree by the audience. A little more animation, at times, in *Squire Cantwell*, a character assumed by Mr. F. Somerville, would have been an improvement. The St. Patrick's Dramatic Club are to be congratulated on the success which has attended their efforts.

LAURENCE.

William Fairbairn is the Teller for Stealing Caps.

On Friday evening a couple of seal skin caps were stolen from Messrs. Hamilton & Donaldson's store by some party. The matter was reported to Detectives Littlehales and Gates, who arrested a man named William Fairbairn on Saturday evening on suspicion of being the guilty person. The caps, however, had been disposed of and they have not yet been recovered. The matter came up at the Police Court yesterday, when the prosecution asked for an adjournment for a few days. Mr. Sadleir, who appeared for the prisoner, objected on the ground that not the least evidence had been given either openly or to the Magistrate in private that pointed to the guilt of the prisoner. His Worship said that Mr. Sadleir's remark certainly had some weight, but he was disposed to grant an adjournment till Tuesday. This was done.

The regular fortnightly meeting of the City Council was held last evening, the following being present: His Worship Mayor O'Reilly (in the chair), and Ald. Mathews, Gage, McLagan, Crooker, Lees, McKay, Mason, Kennedy, Wilde, Kent, Stevenson, Keror, Kavanagh, Brooks, Carscallen, Bauer, Carruthers, Allen, Page and Myers.

After the minutes of the last regular meeting and special meeting had been read and approved.

Mr. HILLS, Assistant Clerk, read the following

PETITIONS AND COMMUNICATIONS:

From M. E. Wanzor, Secretary of the Boys' Home—Asking for an increased grant to that institution.

From Wm. Magee, jr., Market Clerk—Praying the Council to allow him a rebate of two weeks' fees, \$327.50, and alleging that he had been running the market at a loss; also complaining that the new market by-law is too stringent in its provisions.

From Wm. Lydiatt—Applying for employment as fireman or assistant on the new fire steamer.

From Chisholm & Haslett—Claiming, on behalf of Rev. W. S. Griffin, of St. Catharines, compensation for injury received by that gentleman through a fall which he received on the sidewalk on King street east on the 24th of October.

From H. Barnard—Stating that he has on hand fifty hydrants, which he is willing to dispose of to the city at \$18 each.

From John D. Ronald—Objecting to the Fire & Water Committee of the City Council being the judges at the coming test between the Ronald and Silaby engines, and asking that practical mechanics be employed in that capacity.

From Maitland Young, Secretary of the H. & N. W. Railway Company, as follows:

HAMILTON, 24TH NOVEMBER, 1879.

To His Worship the Mayor:

Sir,—I have the honor to enclose a copy of a minute made by the Railway Board at their meeting this afternoon, and to request that you will have the goodness to communicate the same to the Council.

I trust the Council will be satisfied by this assurance, and by the evidence of sincerity and good faith already shown in the employment of a full complement of men in the shops, that the Directors are neither unmindful of the interests of the city, nor seeking to evade the just obligations of the Company.

I am, sir, your obedient servant,

MAITLAND YOUNG,
Secretary.

EXTRACT FROM THE MINUTES OF PROCEEDINGS OF THE BOARD OF THE HAMILTON AND NORTH WESTERN RAILWAY COMPANY, AT MEETING HELD ON THE 24TH NOVEMBER, 1879.

"The Chairman reminded the Board that the City Council would probably resume this evening the discussion on the report of the Railway Committee, recommending the adoption of legal proceedings against the Company, and he thought it was desirable to offer such assurances as it is in our power to give regarding the due fulfilment of the agreement between the city and the Company."

"After a full discussion, it was agreed to record the following minute, and that a copy of the same should be handed to His Worship the Mayor to be presented to the Council to-night."

"The Board acknowledges without reserve the continuance of the obligations of the Company to the city, under the agreement made when the by-law was passed, authorizing the subscription of stock in the Company, to the amount of \$100,000, and that the agreement entered into with the Northern Railway does not, and was not intended to interfere with the relations of the Company to the city."

"On the contrary, the Executive Committee, as the agent of the Company, recognises fully, as it is bound to do, the claims of the city of Hamilton."

"Further, this Board acknowledges with regret that the General Manager (probably in ignorance of the relations of the Company to the city, and without due consideration, made such a reduction in the shops at Hamilton as not unnaturally gave rise to discontent and apprehension lest it was intended to break faith with the city, but the Executive Committee has already entered into a complaint of complaint by the employment of about the same number of men as before, and this Board desires to give assurance of their intention in good faith to maintain the establishment at Hamilton to the full extent of their capacity."

"Certified a true and correct extract."

"MAITLAND YOUNG,
Secretary."

From R. P. Tomassek, C. E., enclosing the following with regard to the water works:

GENTLEMEN,—I have the honor to submit for your consideration a brief report and estimate of the amount of work required to effect the changes which are contemplated being made in the water supply of our city. It may appear presumptuous on my part to give an opinion, after that of two gentlemen of such prominence in their profession as Messrs. Keeler and Kennedy; but gentlemen of my profession, no less than those of the medical or legal, frequently differ widely in their views.

I am confident, however, that the following plan, if adopted, will be the means of saving to the city of Hamilton the sum of \$45,000. Having received the necessary permission to

was for gas supply.

MARKET, FIRE AND POLICE

Ald. CARRUTHERS, Chairman, submitted the following report:

A communication was received from the Police Commissioners requiring clothing for Detectives Gates and an overcoat for the former, a coat and overcoat for Constable Granted, to be furnished by the City. A petition from Mr. Gage, requesting permission to sell crooked market ground, Your Committee on the privilege asked for in consequence of a petition from the Chief of the Fire, respecting the right of way going to Committee recommend that a by-law be as far as legal in accordance with a petition in said petition. A petition for buyers on the King street market, to purchase nine overcoat over drivers and foreman of the Fire Brig of \$6.50 each; also to ask for tenders of rubber hose for the Fire Department have certain alterations made to the the sergeant at the James street. To the cost of \$100, a portion of the same being in a damp and unhealth

The report stated that accounts to \$760.85 had been passed to the Committee for payment.

HOSPITAL COMMITTEE.

Ald. CROOKER submitted the report of the Hospital Committee, which stated accounts amounting to \$1,145 had for payment, made up as follows: supplies and work on contract, \$94; of Refuge, \$194.43; Cemetery, \$1. Committee asked permission to tenders for 100 cords of wood and 25 cords for House of Refuge cludes as follows:

Your Committee beg further to request answer to advertisement they received for the repair of the Hospital, a plan of specifications of Messrs. Hills. John Burnisturn's tender was not in failing to furnish adequate tender of Mr. George White was a tender being the next lowest.

Your Committee beg to report that tractor, Mr. Geo. White, is rapidly completing his work, and the Hospital will be ready for re-occupancy in a few days.

JAIL AND COURT HOUSE COMMITTEE.

Ald. CARSALLAN, Chairman, the report of this Committee, which commended the payment of accounts amounting to \$1,297.26, made up as follows: per cent. of \$1,417.65 and 80 cents of \$420.43 for offices and of Courts, \$252.26; proportion of salary at Court House, \$33.15; the Sheriff of the County, \$14; the attention of the Council fact that the award between the county relative to the maintenance House, jail and prisoners will expire 31st Dec. next, and asked leave to the Committee of the County Court view to ascertaining if the county intend to adjust accounts on the present award; and, if not, to ask changes are proposed; and also report whether or not it is the duty to continue the existing arrangement with the county or to have a fresh bid.

WATER WORKS COMMITTEE.

Ald. STEVENSON, Chairman, read the report of the Committee as follows:

Your Committee received five printing 1,000 copies of Messrs. Keeler's report, and have awarded it to A. Lawson & Co. for the sum of \$10, being the lowest.

Your Committee considered the Mr. Dwyer and others in reference flow from the H. L. R., and now receive a nine-inch pipe sewer be extended John street road, from opposite the Mr. Gagey, to the foot of the John street, which will intercept the overflow of water complained of.

Your Committee ask authority to go for coal for the H. L. pumps, 500 quantity as may be required until July next.

Your Committee have passed and the Finance Committee accounts \$1,705.50.

Your Committee report that the West End Sewer are practically on remaining to be done except a portion which will be completed tomorrow by the feet of this sewer, which 780 feet had to be re-laid with.

Your Committee received the following for the construction of the East End R. P. Tomassek.

Jas. Nolan
Isaiah Beer

Thos. S. Bell
D. A. McIntosh

Edward Burns

The engine question is the campaign.

Ward No. 4 will give Mayor O'Reilly a large majority.

There is a very general feeling that when you have a good man in the Council you ought to keep him there. There is an equally strong impression that incompetents ought to be got rid of. The result ought to be productive of good to the city.

EXCELSIOR TEMPLE, I. O. G. T.

Concerts and Literary Entertainment.

A very pleasant evening was spent in the Lodge-room of Excelsior Temple, I. O. G. T., on the corner of King and Queen streets, last night. Mr. D. J. Garrick acted as Chair- man and opened the meeting with a short address. The programme, consisting of songs, readings, recitations and dialogues, was then proceeded with and satisfactory fulfilled. The entertainment concluded with "God Save the Queen."

NOTICES.

HAMILTON STRAW WORKS.—The proprietors of this new industry in Hamilton, Messrs. Collyer, Land & Crisp, are now engaged in getting out full lides of samples for next season. They have taken the premises 106 York street, where special machinery has been erected and everything got in readiness for the carrying on of an extensive business. When in full operation they expect to give employment to thirty hands. Already they have had placed with them several large orders, which will keep them employed for some time.

THE BERGERS and SOL SMITH RUSSELL.—This famous company of musical artists, 13 in number, with the incomparable comic artist, Mr. Sol Smith Russell at its head, and with its wealth of beautiful young ladies playing upon all sorts of wind and stringed instruments, are to appear at the Mechanics' Hall on Wednesday evening, the 17th inst. This troupe made so favorable an impression when here last season that a full house will undoubtedly greet them upon their return. The company this season is unusually strong and although some changes have taken place in the personnel of the troupe it will be found to be fully up to its former standard. Among the new artists who will appear here for the first time are Miss Marie Roller, violinist, a graduate of the conservatory at Leipzig and formerly leader of the ladies' orchestra of Berlin and Vienna, and Mr. Louis F. Boos, the celebrated cornet virtuoso, winner of the champion prizes at the Michigan State band tournaments in 1878 and '79. Mr. Sol Smith Russell will positively appear here with the troupe (the report that he had left the Bergers being incorrect), and his genial smile and mirth provoking sallies of wit will again convince his hearers with peals of merry laughter. This company is one of the best that visit us and a full house will be present to welcome them.

and that was all he had to go upon. A very similar case occurred in the county of Simcoe, where there was a director occupying the same position he did, but they could do nothing against the rest of the Directors. He had been accused of taking several courses in regard to this matter. Some of the electors were under the impression that he had signed some document detrimental to the city's interests. He had frequently denied this and he now repeated that denial, and further stated that it was not in his power to do anything of the kind. Again it had been said he had given his vote in favor of the removal of the workshops, but he wished to say he had done no such thing. He was between two fires. A portion of the electors thought he was furthering the interests of the road against the city, while the railway authorities thought he was urging too much upon them. He would say no more on the railway question. In regard to the statement that he had occupied the Mayorality chair already too often, he would simply say that in 1869 he had been elected to that office and again last year. He then referred to the fire engine question. After the McInnes fire it was seen that our water supply was inadequate, and a committee was appointed to examine in the merits of various engines, and that committee reported in favor of the Sibley. The Council, however, thought it best to have both engines tested here together. The committee drew up certain tests and these were kept secret till the day of trial. A Sub-Committee was appointed to conduct the test. A resolution appointing a committee of engineers was voted down in the Council, but at the test he (the speaker) considered that mechanical judges should be appointed and he had therefore requested three gentlemen to act and they did so. These engineers did not think it fair to the Ronald to limit her to 100 pounds of steam and additional tests were prepared and carried out. The engineers had presented a very extensive report and the Committee would doubtless have their report ready by next Monday evening when he felt satisfied everything would be done that would be satisfactory to every mechanical man. He then referred briefly to his past career as Mayor and hoped it had gained the approval of the electors. (Cheers.)

What- ever their decision was on the first Monday of next January he would accept it. (Cheers.)

Ald. ALLAN was then called upon. He said he felt a little out of place here to-night, though he was amongst friends, for his Worship the Mayor was his friend and when he was the chair he (the speaker) felt gafe. (Laughter.) His Worship had gone over the question of the H. & N. W. Railway fully. That question had been a very heavy one with the Council, who had to deal with men in whom the public did not seem to have much confidence. The Hamilton & Dundas Street Railw, had been another matter before the Council, and he considered that the by-law, which had been attempted to be pushed through the Council, a monstrous piece of devilry. He went on to speak in strong terms against the action of the Directors of the H. & N. W. Railway. They had taken their engines down to Toronto to be repaired. The Committee of the Council, however, thought anything that was done could not be worse than throwing the city into a law-suit, and the motion was voted down in the Council by one vote. He (the speaker) had insisted and would insist on making the Directors carry out their agreement.

A VOICE.—Tell us about the fire engine.

MR. ALLAN.—The Mayor, he thought, had acted in a very proper manner in this matter. He (the speaker) had been at the tests for four days, and he felt honestly that the Ronald engine was just the engine that Hamilton wanted. (Loud cheers.) It was not right that, when we had a good article here, we should go across the line and throw our money to the Yankees. (Cheers.) He had been present when the engines were weighed at the wharf, and he would never believe that the Sibley was the lighter of the two.

Mr. D. McCULLOCH was the next called upon. He said he had not come to this meeting with the intention of the expectation of speaking. He was pleased, however, to be present as the Mayor was an old friend of his, and he had always found that gentleman to be perfectly straightforward and honest. In regard to the Railway question he did not think it was his duty to say anything more.

This case, which was third on the pre-emptory list for to-day, was called up at noon. The plaintiff's counsel stated that Mr. Richard Martin, Q. C., the defendant's counsel, had to go to Toronto and he did not desire to urge the case. He also stated that it had been agreed to take the examinations of the parties this evening before an examiner, and that it had been agreed that the case should not be taken to-day. His Honor, however, told counsel that they could not make any agreement in respect of a case on the pre-emptory list, and ordered a jury to be sworn. The plaintiff's counsel had, therefore, to go on. Several facts of the case were withdrawn from the jury, to be discussed in terms, and the only question submitted to them was what was the amount the plaintiff was entitled to for wages. A. S. Wink for plaintiff; John Crawford for defendant.

The jury after being out for some time could not agree and were dismissed.

PASSETT vs. ELLIOTT.
Action on a promissory note. Verdict for plaintiff, \$184.75. Mr. John Barry for plaintiff; Mr. Goodman for defendant.

NO BILL.

In the Queen vs. Thomas Connell, the Grand Jury returned "no bill."

There being no other cases ready the Court was adjourned till half-past nine Thursday morning.

MADAME FRANKLIN'S BUR. LESQUE COMPANY.

This organization, at the head of which is nobody knows who and which comes from nobody knows where, performed at the Mechanics' Hall last night, before a very small audience. The attendance was far too large, however, considering the class of entertainment presented, for a more miserable affair was never before seen in that place. There was not a single good feature about the show, nothing to praise and very much to condemn. Four females and an equal number of the opposite sex appeared on the stage at the commencement, and for a time they occupied themselves in perpetrating old, worn-out jokes and murdering wishy-washy songs. There was an unmistakable odor of smut, too, permeating the so-called entertainment; the blackguardism had not even the poor merit of being veiled in refined language. The whole performance was miserably poor from first to last, and it is nothing short of a positive disgrace to allow such organizations to give public exhibitions in any respectable place.

COMMUNICATION.

"That Gully?"

To the Editor of the SPECTATOR.

SIR,—Several complaints have been made through your paper in regard to the bad state of Locke street south, crossing the gully, but as yet nothing has been done in the matter. The opening of the sewer and laying down water pipes has not improved it in any way, but rather to the contrary. The sidewalk being about a foot below the level of the road, and seldom free from mud in wet weather, makes it very dangerous to walk upon, owing to its sloping condition. Several accidents have happened, but none as yet of a serious nature. Persons who have occasion to travel in that direction at night run a great risk of breaking a limb or their necks by stepping into the ugly trap holes here and there alongside of the sidewalk.

The most dangerous part is near Costello's bakery. The rush of water from the road side during heavy rains has washed the earth away, leaving little or no support for the scumblings to rest upon. This is bound to cave in soon and carry with it anyone who may be upon it at the time headlong into the gully. Here where a lamp is most required there is none. Something should be done to ensure the safety of the people who live in that neighborhood, as the gully is the nearest and best approach to our respective homes.

By kindly inserting the above in your paper you will oblige

Yours,
DANGEROUS.
