

## PHOTO SUPPLEMENT

Highlights of the  
July 10th Niagara Falls junket  
sponsored by the U. C. R. S.  
... our last fling with CN 6167  
before her date  
with the torch.

A superb record of  
vanishing splendor  
submitted by Jim Brown.

6167 throws out a fine plume of  
smoke, on the Welland River bridge  
at Port Robinson.

The locomotive's good proportions  
are evident in this photo, taken at  
the Grand River near Caledonia.  
Note the two smoke rings.

Another action shot of 6167, crossing the Michigan Central and the Wabash at Canfield Jct.

Nothing but the best! A view of the "watering up" arrangement at Port Colborne.
