LOCAL NEWS ITEMS.

LOCAL NEWS.—We shall be happy to receive at all times, from any part of the County, items of local news, such as accidents, or any interesting incident whatever, from any of our subscribers or readers generally, for the purpose of publication.

Business Notices inserted in this column, five lines and under, fifty cents, over five lines ten cents per line extra.

Two more families are reported to be down with the small-pox on the 3rd Concession. No deaths are reported since our last issue.

New dress goods, prints and cottons at H. Wilson's; also teas, coffees, sugars, tobaccos, oranges, lemons, prunes, dried apples, figs, biscuits and confectionery.—All cheap for cash.

Mr. John Boyd, of Whitevale, has bought the Poucher corners, Belford, and is now advertising for tenders for the painting, plastering, etc., of a new hotel to be erected thereon.

HENRY WILSON's staff of dress makers are at work and prepared to execute all orders in dress

The old Markham Bakery has again changed hands. Mr. Fogg, who had it some years ago is now running it. We understand Mr. M. Lawler, will be in charge. Since penning the above we

have learned that Mr. Fogg has sold the bakery to Mr. James Maxwell, who intends carrying on the business.

Mr. H. Tane has leased the store formerly occupied by E. Burk and will remove his business there in the fore part of April. In the meantime he will offer his whole stock at bargain, so as to reduce it as much as possible before removing. Mr. Tane has just received his spring goods, and his customers will find them marked very low.

Farmers should look over their implements and get them in order for the spring work, now so close on hand. Also if any article is needed now is the time to purchase it. Messrs T. & G. Morgan have a large stock of their celebrated cultivators and grubbers, iron harrows, and light and heavy waggons, buggies etc. They are also agents for the renowned Wilkinson plow. See advt.

WANTON CARELESSNESS.—Our young men are sometimes reckless enough to shoot at a mark within the limits of the village Corporation, in defiance of the law for prohibiting the same. Last week Chester Lehman, a mere lad, was indulging in the reprehensible amusement with an old American musket, which carries a ball 15 to the lb. (The ball went through the mark and struck the ground near Mr. Mortimer's residence, and recochitting, passed through the walls of the kitchen and bedroom and lodged in the opposite bedroom wall, passing within a few feet of Edith and Mrs. Mortimer, who were in the kitchen. It is to be hoped that the narrow escape will be the means of in future preventing this reprehensible amusement.

LOCAL MISCELLANY.

ONTARIO COUNTY.

From the Ottawa Indicator.

JOHN Keenahan, who has been dependent upon the corporation for some years past, departed this life yesterday morning. He has been confined to bed for some time, and yesterday morning Mr. J. Vallan went into his shanty, where he lived alone, to light a fire, Keenahan spoke up strongly, and appeared to be better. He got out of bed and sat on a chair, the first time he has done so for weeks. When another neighbor went into the shanty to look after his breakfast a short time after, the old man was found to be dead. He was supposed to be dying several times in his life, and once, many years ago, he was actually laid out and a coffin procured, but to the astonishment of those who were trying to put him into the coffin, he revived from his swoon. He is now certainly dead and buried.

A RAILWAY SMASH.

Several Freight Cars on the T. & N.
Ry. Jump the Track.

BURNING UP THE WRECKAGE

On Saturday afternoon as No. 9 freight train on the Toronto and Ninissing Railway was going north several of the cars jumped the track and were crowded in a confused heap on one side. The accident occurred in a cut, so that great difficulty was experienced in clearing the track. The road was blocked for six hours which was particularly unfortunate from the fact that the mail trains both up and down were delayed. Had it been possible the wreck would simply have been pushed out of the way, but this was impossible owing to the confined space in which it lay. Finally it was decided to burn the debris, and though this entailed some damage upon the track at that point the plan was carried out, and the gang of section hands who had been called to the spot repaired the damage to the track without difficulty. The net result of the accident was the complete demolition of one freight car, three others being injured, but none so badly that they could not be put upon the track again. None of the men on the train were injured.

It is reported that Mr. Edwards of the

of this village, through Mr. D. Ormiston, claims \$16 damages from the Corporation of the Town of Whitby, for injuries received by a fall on the 19th of June last, caused by a defective sidewalk. *Saturday Night* thinks that a little prompt action on the part of the Committee on Streets and Improvements would avoid considerable trouble.

TAKEN WAS "a sound of revelry by night" on Main Street, near the Bank, on Monday last about midnight, so the people in that neighborhood, complain. Some of the "bloys" were having a bit of "diversion" at that unseemly hour, trying to get up a fight; and they may consider themselves fortunate that they were not called on to appear before a magistrate next day. Towards two o'clock in the morning they extemporized a bon fire, and under the inspiration of the curses of Canada, made night hideous for a time, howling fire, to the alarm of those living in that part of town. Should such proceedings be attempted again, the disturbers will hear more about it afterwards.

RAILWAY SMASH.—On the afternoon of Saturday last, an No. 9 freight train on the Toronto & Nipissing railway was going north several of the cars jumped the track and were crowded in a confused state off the side. TROUBLE IN THE PUBLIC SCHOOL.—One of our Public School Teachers undertook to chastise one of his pupils the other day. The father became indignant at the teacher's actions, and an invitation was extended to the teacher to appear in the yard, but—on account of the weather, we suppose—he declined the invitation, and transferred it to our constable.

IN TROUBLE.—Dan Brown has again got into trouble. He appeared at the G. T. R. station, Whitby, on Monday evening last, the worse of liquor, with a revolver in his possession, which he flourished over the heads of the people waiting at the station, and threatened death to any person who interfered with him. From there he proceeded to Toronto, where he was arrested for being drunk and disorderly, and for having a revolver in his possession. He appeared before the Magistrate on Tuesday and was fined \$50 and costs or three months for carrying a revolver, and \$5 and costs or three months for being drunk. The constable at Whitby has also taken out a warrant against him, and on the completion of his Toronto sentence he will be handed over to the Whitby authorities. Brown had in his possession about \$200 belonging to Mr. Pedlar, of Oshawa, but he elected to go to gaol rather than pay the fines with his employer's money.—*Reformer.*

Hints for Farm Work.

YOUNG STOCK need not be housed until real cold weather sets in, but they should have a warm shed to lie in at night, and be kept in first-rate condition through this month with turnips, fed tops and all.

SHEEP bear more exposure than any other of our domestic animals (not even excepting horses, not worked), that is, exposure to the weather, but not without shelter from storms. The ewes ought to be in lamb by this time and must be kept doing well. Half a pint of corn a day each will go far towards keeping them in good condition. Weed out all those that show signs of weakness, have poor teeth, etc., and fatten them if you can.

PIGS.—It is much better to kill early than late. As soon as cold weather comes on pigs will gain very little, if any, and often lose during cold storms. Therefore, crowd them if not fat enough to kill. Feed occasionally pulverized charcoal, to keep their digestive functions in tone, keep them clean and warm, and cook them to eat every ounce possible.

POULTRY need to be treated much in the same way. That is, fatten and killed early, if intended for market. Though prices usually go up steadily after the first of January, yet the additional cost of fattening in December, or of holding poultry after it is fat, is but rarely paid for by the higher price. Warm quarters are essential to winter laying.—*American Agriculturist for November.*

DEAR SIR, I was pleased to receive by the last issue of THE JOURNAL that the School Board were beginning to find out that some economy is necessary in the management of our schools. As a beginning they are about discharging the French teacher, and have made the magnificent reduction of \$25 in other salaries by taking \$100 from the teacher and dividing all but \$25 between two others, a very shabby way of beginning a reform. If they think such retrenchment as that will satisfy a majority of the people of Uxbridge, I presume they will find them selves mistaken. They should have commenced at the top first and reduced the salary of the headmaster (who gets about one dollar per hour for teaching from about a dozen to twenty pupils) and not go for the man who does the most work at half the salary. They should reduce the headmaster's salary 3 or \$400, and reduce the rest in proportion. They need not be afraid that the school will be left without teachers, because if any left, an advertisement in the papers would soon bring fifty applicants for their situations. Teachers should also be given to understand that application for an increase of salary should be considered as a resignation. There is plenty of room for great reform in our school expenditure, and the teachers then be paid the same rate as in other places. The total cost of the Exeter common school last year was \$1993; they have 1 first, 3 second and 2 third class teachers, and a caretaker who keeps the grounds in splendid order; they have 500 pupils on the register, with an average attendance of 275; as large a school as ours—that is, exclusive of the High School. We paid in salaries last year \$357 more than the Exeter school cost altogether. Our total expenditure last year for the common school was \$2,845 20, the large sum of \$852 20 in excess of Exeter. In addition to this \$2,845 20 for our common schools, we have to support a very expensively conducted High School at a cost of \$1995 82.

I think a great reduction could be made by adopting the half-time system for the junior classes, as they have done in Oshawa, Galt, and other places. I am informed that Lindsay, Markham and other places are moving in the same direction. It is not only a great saving of expense, but it has been found that the pupils are in better health and make greater progress with their studies. This is the experience of those who have tested the system and the parents of the pupils where it has been tried could not be induced to return to the cruel system of confining small children for five or six hours to get a twenty minutes lesson in reading twice a day. This half-time system should be properly explained to the ratepayers, and submitted to a vote, along with the rate-bill for the High School. Respecting the rate-bill, it should not be less than two dollars per quarter, as many schools charge higher. I have always occurred in schools for elementary instruction being free. But I hold that if people are not satisfied with a good English education and want to have a smattering of Greek, Latin and French, they should help to pay something for it themselves.

I wish to say that I am not against education, but against expenditure that is undoubtedly useless and for which

 THE CLUB.—Dr. Bacon delivered
 a very interesting and instructive lec-
 ture on "chemical changes and the in-
 destructibility of matter," with practi-
 cal tests, at the Club-room of the Me-
 chanic's Institute, on Tuesday evening
 last. The lecture was listened to with
 interest and a hearty vote of thanks
 tendered to the lecturer. This is the
 first lecture of a series to be delivered
 by the Doctor in this connection.
 WE would recommend all sorts and
 conditions of men, women and children
 to buy what things they want for
 Xmas presents from W. B. Stewart, as
 his stock is well assorted with suitable
 goods for family use, such as: ornate
 frames, cake baskets, pickle jars, but-
 ter knives, tea and table spoons, forks,
 &c., &c. You will notice that all his
 goods are very useful, as well as orna-
 mental, which is a great consideration
 in giving presents. Give him a call.
 McKINNELL is still showing a magnificent
 range of Winter Mantles. Every lady in
 want of a mantle should see his stock. On
 hand some beautiful German Mantles
 which were bought at a large discount, and
 will be sold cheap.
 T. & N. RAILWAY ITEMS.—Owing
 to the sharp frost on Friday last, a
 crank pin on the double-header engine
 broke and the result was that the end
 of one of the cylinders was broken off.
 The same day a freight train ran off
 the track at Scarboro, owing to a mis-
 placed switch on the Grand Trunk;
 also, a shunting engine ran over a closed
 switch at Markham. The company
 have commenced the construction of
 12 cattle cars and two passenger cars,

 the best children's publications we
 have ever seen. Profusely illustrated
 with beautiful engravings suitable for
 children, and brimful of the most inter-
 esting reading for little folks, par-
 ents should subscribe for it and place
 it in the hands of their children.
 STRAY CATTLE.—Advertise your stray
 cattle. If you have lost any, they
 may be causing you a bill of damages
 in somebody's barn yard; if you have
 any in your possession, you may have
 your trouble with them for nothing,
 and be liable to prosecution as well,
 for not advertising them.

 PRESENTATIONS.—A very pleasing
 part of the exercises at the school on
 Friday last was the presentations made
 to three of the teachers by the scholars.
 Mr. Jennings, principal of the public
 school, was presented with three vol-
 umes of poems—Mr. Jardine, 1st as-
 sistant in the High School, who is a-
 bout leaving, received a handsomely
 bound copy of the scriptures, and an
 autograph album; and Mr. O'Brien,
 second teacher in the public school, al-
 so about to leave Uxbridge, was made
 the recipient of a Bible and photograph
 album. The presentations were ac-
 companied by the usual addresses, and
 were acknowledged in feeling terms by
 the recipients. A good deal of regret
 is expressed that the School Board
 should find it necessary to part with
 two such capable teachers as Messrs.
 Jardine and O'Brien, who have labored
 so faithfully and successfully to pro-
 mote the efficiency of their respective
 departments.
 YOUNG MEN, leave your orders for cloth-
 ing at McKinnell's. The finest stock of
 tweeds and worsteds in Uxbridge, to select
 from. An A.1 cutter on the premises.
 Suits got up to order in the latest styles
 and a good fit warranted.
 SCHOOL EXAMINATION.—The exam-
 ination of the Uxbridge Public Schools
 on Friday last, was probably the most
 successful that has ever been held in
 Uxbridge. The attendance of visitors
 was unusually large, indicating the in-
 creased interest taken in the schools
 by the people of this place. Rev. Mr.
 Davidson took an active part in the
 examination of the scholars and ad-
 dressed the pupils, commenting on
 their improved behavior, both in school
 and on the street. Addresses were
 also given by Messrs. F. Davis, Sen.,
 D. Walks, Jas. Dale, H. McKay, and
 Rev. Mr. Gordon, the latter remark-
 ing that he had heard of the high rep-
 utation of the schools long previous to
 his coming to Uxbridge; had it not
 been for this he would not have come
 to Uxbridge, and having come here he
 was not at all disappointed in his ex-
 pectations concerning the school, but
 was very much pleased with the thor-
 oughness of the instruction imparted.
 The Oshawa School Board received
 no less than 87 applications in answer
 to their advertisement for two teachers
 for the mastership of the Centre and
 Albert Street Schools. Some mem-
 bers of the Board think it would be
 well in future to demand a deposit of
 five dollars as a guarantee of good
 faith, which amount would be expend-
 ed in order to secure an inducement

"Young," we give such an able address
 what may we expect when he comes to
 the maturity. Miss Randall presided at the
 organ with ability. She possesses a quality
 which other accompanists would do well to
 emulate, inasmuch as she plays in a manner
 to accommodate the voice of the singer and
 to give expression to what is sung. Mr.
 Mann deserves special mention for provid-
 ing such good singing by a mixed choir,
 only a few of whom ever sang with him
 before. The meeting was very successful.
 One of the good old widowers, I under-
 stand, has left for parts unknown. We
 wish him good luck.
 One young man, as soon as he heard of
 those two young ladies, took the lightning
 express train to Uxbridge city; it is re-
 ported, to see if he could find the "Sweet
 Sixteen," and to prevail on her, if possible,
 to come and take up her abode in the little
 white house on the hill. Have not heard
 with what success he met, but I can prom-
 ise her a hearty reception by all the
 neighbors if she comes. I once knew an
 old man who was on the war path a long
 time, but he met with a fair one just in
 time to save him falling into the camp of
 the enemy and being divested of all his
 moral prudence and public etiquette. So
 you see that the Sweet Sixteens are useful
 sometimes.
 Mr. Duer has rented Mt. Albert Grist
 Mill from Mr. Page and expects to move
 here shortly. I also understand he is go-
 ing to run for councillor.
 Mr. Denno was out again from Newmar-

 Mr. Shields and about 12 cwt. from Mr.
