FIRE.—Uxbridge had been without a fire so long that the one of Sunday last was a surprise. The engine-house here of the Midland Railway Co. was burned to the ground and four engines in it almost totally destroyed on Sunday morning about 1 o'clock. No one was in the building at the time of the fire, which is supposed to have caught from the stove. The man engaged as wiper had left not quite an hour before leaving everything apparently safe. The fire, originating inside, had made considerable progress before being noticed by the night operator at the station, who was the first to see it, and when it was found that water could not be obtained to work the fire engine the building had to be given up and all energies directed towards saving adjacent buildings, which was done by throwing snow on the roof and sides. R. W. Ward, the wiper, made an effort to run out the double-headed but the smoke was too much for him. The loss to the company will be about \$50,000. The engines destroyed are Nos. 2, 4, 5, and 9, all narrow gauge. They will likely be replaced by broad gauge engines which have now become almost universal on the road, there only being 8 of the narrow gauge left on the entire line.

It is no uncommon thing now a-days to see a quiet and dignified appearing man suddenly step on the icy walk and attempt the difficult trick of kicking his own hat off. There is no after-linner smile on his face when he gets up.

Mincepie season is here, and those who can afford it will now dream of elephants with four trunks and snakes

G. W. Mangay, Parkdale writes: "My wife had severe attacks of nervousness in hearing of Dr. Austin's Pills its pleasantness to take, 1 bottles and she has not been since, and her health is much for sale by all druggists.

DIVISION COURT.—The next ses-
sion of the Division Court here will
be held on the 13th of February.

Ladies, you can improve the looks of
your last season's mantles by buying some
of those handsome gimps and ornaments
which McKinnell has lately received from
London, England.

COUNTY COUNCIL.—The first
meeting of the County Council will
be held at Whitby on the 23rd inst.

Our November Tweed sale—many lines
will be found far below regular prices at
D. H. McIntyre's.

THE DOUBLE-HEADER engine, which
was burned in the fire of Sunday, is
undergoing repairs at the car shop and
it is expected she will be of service yet.

Boots and shoes all sizes and all prices at
McKinnell's. The Uxbridge Cheap Cash
store is the place to buy your boots.
Ladies fine goods a specialty. Men's long
felt boots at rock bottom prices.

OFF THE TRACK.—Some cars ran off
the track at Goodwood on Tuesday and
were damaged to the extent of about
\$150. The accident was caused by a
broken axle on one of the cars.

CARNIVAL.—The first carnival of
the season will be held on the Uxbridge
rink to-morrow ev'g. Admission
15 cents. The band will be in attend-
ance and as many as possible are re-
quested to appear in costume.

Police Court.
[Before A. O'Leary, P. M.]

On Friday of last week the case of Mary Graham against J. Lane for assault, and a second charge for using indecent language, came up at the police court. Lane was convicted on both charges and fined \$1 and costs for the first offence. The punishment for the second offence was reserved. A counter charge of Lane against Mary Graham, for larceny of a cap, was dismissed.

Thoroughbred Berkshire Boar.

Mr. E. P. Gillogly last week visited the stock farm of Mr. Jos. G. Snell, Edmonton, Peel Co., Ont., and purchased a fine young Berkshire boar from the best stock on the farm. His sire, "Royal Stewart," [3029] was imported last year by John Snell's sons. His dam, "Winsome Sallie," [2018] was imported by the same firm last year also. "Royal Stewart" won first prize at Bath West of England show in 1881, and second at Royal Show of England same year; imported to Canada and won first prize at Provincial held at London, first at the Industrial at Toronto, and headed first prize held at both places. "Winsome Sallie" won first at Toronto and second at London same year.

Lindsay Inland Revenue Collections.

We are indebted to Mr. J. B. Knowlson, inland revenue collector at Lindsay, for the following statement of revenues for the years 1881 and 1882. It shows that the increase in 1882 over the preceding year was \$1,863.75:

	1881.	1882.
January.....	\$1,157 78	\$1,087 62
February.....	1,052 21	1,507 14
March.....	881 83	1,601 70
April.....	1,058 77	1,701 12
May.....	812 44	1,270 40
June.....	1,261 82	1,993 89
July.....	1,133 06	1,680 82
August.....	1,284 02	1,862 61
September.....	1,056 28	1,690 08
October.....	1,685 77	2,411 80
November.....	1,537 36	1,500 97
December.....	2,001 60	2,119 41
	\$15,636 84	\$20,490 50

Railway Notes.

—The train going north on the Victoria was blocked with snow on Wednesday at McLaren's creek and had to return. Passengers had to remain over until the regular train on Thursday.

—The traffic of the Midland railway for the week ending January 6th, 1883, was as follows:—Passengers and mails, \$5,810.42; freight, \$6,000.59; total, \$11,811.01 as compared with \$9,543.35 for the corresponding week of 1882, being an increase of \$2,267.66.

—The Midland roundhouse at Uxbridge was burned to the ground Sunday morning. The alarm was given between one and two o'clock, the fire brigade responded promptly. On their arrival at the round house, in which four locomotives were enclosed, it was one mass of flames. The firemen were delayed a short time on account of the water being shut off at the milldam, but after some little difficulty they managed to get a small stream to play on the surrounding buildings, it being evident that they could not save the round-house. The loss is estimated at \$50,000, and there is said to be insurance to a certain extent.

—A portion of the "wing formerly taken up by butchers' stalls is being comfortably fitted up and when finished will make a welcome addition. Connection between the two rooms used for market purposes will be made by means of an archway cut through the wall between.

—An economical power for small manufacturing establishments is found in the gas engine. Mr. Doty of Toronto, who has manufactured the iron portion of the gas works plant, is now turning out a silent gas engine that is spoken of very favorably, the 4 h.p. engine running for ten hours at a cost of about 75 cents for gas. Several establishments in Lindsay where small engines are now in use are contemplating putting in gas engines to take the place of steam.

—It is likely that Mr. L. Francois Carpenter, Peterboro's phenomenal terpsichorean prestidigitateur, will give in Lindsay an evening séance, devoted to the exposition of dancing. Mr. Carpenter has cut his name on the pinnacle of fame in letters which shall never be effaced. In Mr. Carpenter's dancing the sharpest criticism is nothing to criticize, and the general admiring public lung enraptured on Mr. Carpenter's legs, while the rhythmic cadences beaten by his accomplished feet are a poem, a sonnet—a revelation. Give us Mr. Carpenter or we degenerate into a race of square-dancing people.

—Manufacturing has been going on steadily during the week at the paper mill, the machines turning out a fine quality of straw-board. Two sets of hands are employed, the machinery running day and night. We understand that it is the intention of the proprietors to shortly commence the manufacture of paper boxes in connection with the mill. There is a large and increasing demand for boxes in all classes of light business, particularly the confectionary, envelope, stationery and fancy goods trade. This new industry would give employment to a large number of hands and become the means of putting in circulation a large amount of money in town.

—A feature of the large grocery business carried on by Mr. Arch. Campbell, and one that is proving exceedingly satisfactory to customers, has lately been introduced. Country customers buy on Saturday of each week, and when in addition town customers were to serve on that day it was generally late on Saturday night before all goods could be delivered. One of Mr. Campbell's young men calls at town customers' houses on Friday morning, taking their orders for such goods as are needed, and which are delivered on that day. This arrangement facilitates the handling of Saturday's business and the delivery of parcels is finished much earlier than usual.

—The township council of Ops intend to pass a by-law taxing all dogs owned in the township. The Ops council have asked the town authorities to pass a similar by-law, as it was felt that without the regulation applied to town canines the object of the township by-law would be defeated. The matter was explained to the council at the meeting on Monday night by Mr. E. H. Hopkins, deputy-reeve of Ops, who said that the amount accruing to the town from the local dog tax would not be applied to the fund for recouping the owners of sheep destroyed by dogs. Mr. Hopkins suggested this tax as a means of "curtailing" the number of dogs. Coun. Connolly, in a speech of epigrammatic brevity, pointed out that just as much taxes had to be raised each year, and it might as well come off dogs and cats as off curling rinks and gas works.

—A most enjoyable social tea meeting was held in the east ward Methodist church on Tuesday evening. Tea was provided for the children of the Sabbath school and their parents and attendants of the church. A most bountiful table was spread and the good things enjoyed by all. Rev. Mr. Greener was elected chairman by a large majority. Mr. L. Maguire gave a stirring address on Sabbath school work and on temperance. The choir of the Cambridge-st. Methodist church sang a number of anthems and contributed to the pleasure of the evening. On Wednesday evening a second tea was held. So large had been the provision made for the evening before that plenty was left to re-set the tables. Mrs. E. B. Roberts played a number of charming pieces on the organ. Mrs. P. G. Riddle sang several favorite songs; Miss Thompson gave a pleasing organ solo; and Miss Wright and Miss Helm and Master Alva Mallory gave vocal selections. A word of commendation is due Mr. W. Croft, who exerted himself in working up the entertainment.

—Mr. F. T. Walker of Dubuque, formerly of Ops, has with some others established the First National Bank of Grafton, Ia. U. with a capital of \$50,000. Mr. Walker is president; J. L. Cashel, cashier; and W. O'Mulcahy, assistant-cashier.

—Mr. R. J. McLaughlin, who has been teaching at Glandine for the past two years, is attending the Hamilton collegiate institute with the view of preparing for the university. Mr. O. J. Brown, formerly principal of the Oakwood high school, is third master in the Hamilton institute.

—Mr. W. White, jr., carriage-maker, returned to town from Winnipeg on Saturday last. He will remain here during the winter. Mr. White gives a very favorable report of Winnipeg, and of its remarkable progress and prosperity. He says there was not as much snow there when he left as in Lindsay, and we have had a big snow-fall since.

The Waterworks.

During the last month the engineer in charge of the waterworks, Mr. J. Makins, has had an anxious time. The wheels and pumps have been tested almost every day. At no time have the pumps worked as satisfactorily as they would have done had there been plenty of power available. The failure to get a stream at the fire on Friday morning was not unexpected. After repeated efforts made that morning to get the pumps to put a pressure on the mains it was decided to uncover the suction pipe extending from the pump-house to the flume in the river, and to examine the pipes thoroughly to see if there was any part of it leaking. It seemed as if such might be the case, as the pumps discharged a quantity of air which did not gain an entrance through the mouth of the pipe as it was covered by the water in the flume. On Saturday an excavation was made down to the pipe and several lengths tested and no flaw found. Upon uncovering a short section of pipe, at the pump house, a large crack was found running its entire length. The defective pipe was made of boiler iron and had been made in Lindsay, to supply a length which had been missed in the amount of pipe furnished by the Waterous Co. of Brantford, the contractors. The fracture in the pipe was filled with a metallic cement and a plate of iron screwed on over it. To further make the matter secure the pipe was thoroughly surrounded with Portland cement. During Thursday the water-wheels were looked after and the ice in the flume cut and taken out. A trial of the pumps will be made to-day when it is hoped a satisfactory pressure will be got on the mains.

Fire in a Work shop.

On Friday morning an alarm of fire was given and it was at once seen that smoke was issuing from among the buildings in the rear of Holtorf's furniture show-room. The hose-reels were on the spot within a few minutes of the alarm being given, and two sections of hose were laid to connect with the hydrants on opposite side of the street. The fire was burning amongst a lot of lumber piled in the loft of Holtorf's workshop. A heavy layer of snow on the boards of the roof of the shop prevented the fire breaking out and out of a draught. In anticipation that the waterworks would not be able to supply a stream, a line was formed and pails of water passed rapidly along from a pump in the yard. The lower part of the shop was speedily drenched, and a corps of active workers ripped up a part of the roof and turned the snow down on the burning lumber in the loft. As soon as the fire was deadened the lumber was rapidly passed out. Adjoining the shop was a stable filled with straw and other combustible material which was thrown out and a liberal drenching of water given to the walls and roof. It was a most fortunate thing that the fire did not occur during the night as the conditions were all favorable to a large and possibly disastrous burning. With the waterworks in the condition in which they were on Friday morning nothing could have prevented a clean sweep of the out-buildings in the rear of the shops along that side of Kent-st. as far as William-st. Possibly, too, the English church, a wooden structure, would have shared a similar fate, as it was only separated from the burning shop by a narrow alley.

proposed branches of the Methodist Church according to the last census would give that body a numerical strength of 739, 151, making it the strongest religious denomination in Canada. The Presbyterians come next with 629,280.

13 lbs Bright Sugar for \$1 at D.H. McIntyre's noted Cheap Cash Store.

"JAPAN."—This was the subject of a very interesting lecture delivered to a large audience, in the C. M. church here by Rev. Dr. Cochrane, of Toronto, on Tuesday evening of last week. The lecturer gave a very amusing account of the ways of that peculiar people, among whom he labored nine years as a missionary. The lecture was given in behalf of the cause of missions and was a success. 2/29/83 Uxbridge

All Wool Tweeds at 50c per yd worth 75c at D. H. McIntyre's.

WOOD SAWING AT THE STATION.
 Coal is burned by all the large engines on the Midland, but the small narrow-gauge engines still in use on the Nipissing Division are wood-burners. The steam sawing machine at work at the station cuts on an average fifteen cords a day, some days cutting as many as twenty-five cords. There are 250 cords of wood at the Uxbridge station, which is a very much smaller supply than used to be kept under narrow-gauge rule, when all the engines burned wood.

MECHANICS' INSTITUTE.—The next popular reunion in connection with the Mechanics Institute will be given by the young people of the Presbyterian Church, on Tuesday evening next 6th inst., commencing at 8 o'clock, in the Mechanics' Hall. The public may look for something more than ordinary as talent new to Uxbridge audiences will be introduced. The Orchestra will assist with some of their choice pieces. The admission has been placed at the low price of 10 cents, so that all may have a chance to enjoy themselves for an evening.

NEW FIRM.—We direct the attention of our readers to the advertisement of Messrs. John Watt & Co., which appears in this issue. This firm has purchased Mr. Button's extensive business here and being merchants of many years experience, the public may rely that the business will be conducted with the same regard for the tastes and interests of the people, as it has been in the past. Customers will be pleased to know that the former

been reported as taken by 12 quarterly boards of the Methodist Church of Canada—424 in favor, 44 opposition, 4 a tie.

ers in this locality. He is agent
for the new Brantford Packing
cord Binder, and the Osborn cord
binder, made by A. Harris & Son
Brantford. Also agent for the new
model vibrating Thresher, Steam
or Horse power, made by the Jos-
eph Hall Manufacturing Co., Osh-
awa. Farmers going to the North
West will find it to their interest
to give him a call as he has a good
assortment of first class Imple-
ments on hand. He has also some
first class wagons from the Speight
Manufacturing Co.

THE DISABLED ENGINES, which went
through the round-house fire here, some
weeks ago, have been sold by the Mid-
land Railway, to the Dominion Bolt
Company, to be converted into scrap
iron.

Mr. Geo. Hobson has sold his sta-
tionery, fancy goods, jewelry, &c., to
Mr. Thos. Bolster, Jr., who resumes
those lines with the drugs, hoping for
a continuance of public patronage.
Mr. Hobson purposes joining his bro-
thers in Arizona U.S.A. The public
will be pleased to learn that Mr. Bol-
ster has taken this step and decided to
remain in Uxbridge.

WIGGINS' STORM HERALD, with
almanac for 1883, has been issued by
the Grip Printing and Publishing Co.
Prof. Wiggins' predictions, in rela-
tion to a great storm to arrive in
March, have created world-wide inter-
est. A number of eminent scientific
men are quite in sympathy with the
Professor in his predictions regarding
this storm, while, of course, a large
number of the same class are ridicul-
ing his efforts. Notwithstanding this
the general public are exhibiting a
considerable amount of anxiety in re-
lation to the matter, which is evidenced
by the following quotation taken from
despatches to the daily press.

Gloucester, Mass., Feb. 21.—Wig-
gins' prediction of a terrible storm in
March has deterred a number of fish-
men their next trip to

what church your neighbor belongs to? enquired a stranger the other day. No, I don't; but he's a Christian. How do you know? Because he has sprinkled ashes on the sidewalk in front of his house.

IMPROVEMENT.—The station here has been altered of late. The office of the agent has been divided by a partition and counter, and parties having business there are attended to at the counter. Persons having no business in the office are expected to keep out.

13 lbs Bright Sugar for \$1 at D. H. McIntyre's noted Cheap Cash Store.

A SURE THING.—Judicious advertising creates many a new business, enlarges many an old business, revives many a dull business, rescues many a lost business, saves many a failing business, preserves many a large business, secures success in any business.

MORE ENGINES.—Two additional broad-gauge engines have been put on the T. & N. Division of the Midland Railway. They are known by their whistles, one of which is like a cow in distress and the other reminds us of a hungry porker squealing for something to eat. 3/22/1883 Uxbridge

FIRST CLASS MACHINE.—We call the attention of farmers and implement agents to the new threshing machine made by the Joseph Hall Works, of Oshawa, and advertised in other columns of this paper. The machine is fully described in the advertisement and mention of the "New Model" Vibrating Thresher is all that is necessary here.

Our great sale of Dress Goods at 5, 8 and 10c, Wincesy 5, 8, 10 and 12c—bought job Call and see them at D. H. McIntyre's Cheap Cash Store.

PERSONAL.—Messrs. J. A. McGillivray and E. C. Campbell, legal representatives of Uxbridge, are attending the assizes being held at Whitby this week. Mr. John Scott late of the Township of Scott, left yesterday for Mount Forest. Mr. Scott has sold his farm in Scott and purchased another in Wellington County, near Mount Forest, where he is moving with his family.

MECHANIC'S INSTITUTE RE-UNION.—We beg again to remind our readers of the re-union to be given in the Hall of the Mechanic's Institute on Easter Monday Evening by the young ladies of the

district had suitable prizes. They were influenced by some not to sing them; whatever be the reason there was a hitch somewhere and more care will likely be taken another time. After the meeting the G. W. P. (Mr. McMillan) re-organized the Mt. Albert Sons of Temperance Division—No. 289. This is the third time the Division has been organized and it is hoped, will be the last, as there ought to be enough temperance element in this district to sustain a good division.

Mr. McKnight is getting in the largest supply of saw logs and shingle timber put in his mills for some years. Mr. Woodcock, from Franklin, is running the mill for Mr. McKnight, who is considered a first class hand. Good work will therefore be turned out.

St. Patrick's Day was celebrated throughout the Dominion on Saturday in the customary manner.

A report comes from Buffalo that Ada Wolfe, aged 12, the daughter of one Jacob Wolfe of that place, became so nervous on reading Wiggins' storm prophesy that, when the day for its fulfilment came, she was seized with terrible fright that resulted in her death.

The Speight Manufacturing Co. of Markham at a meeting of the directors declared a dividend of 8 per cent., with a handsome amount put to the rest. The season's trade has been most successful. —Economist

There is talk of extensive building operations in Oshawa as soon as spring opens.

SIXING.—The frost of the past win-
 ter and unusual amount of water this
 spring have combined to cause the rail-
 way track in some places to heave and
 sink, and to level which will need con-
 siderable labor.

McKinnell still does the leasing clothing
 trade in this part of the County. His
 stock of tweeds and worsteds is simply im-
 mense. His goods are warranted and rep-
 resented, and every garment is guaranteed
 to fit.

DEBATE.—In connection with the
 Sons of Temperance on Monday even-
 ing last an interesting debate between
 young members of the lodge was held.
 Subject, "Resolved, that civilized man
 enjoys more happiness than the barbar-
 ian." On the affirmative side were—
 F. Crosby, leader, Ed. Hardy and A.
 Kinsey. For the negative were—Ed.
 Weeks, leader, H. Summerville, N.
 Cass and N. Stafford. The decision
 of the audience was given in favor of
 the affirmative. Another debate will
 be held in a few weeks.

lace Curtains and Curtain set by the
 yard—also an excellent assortment of Cre-
 tonnes at McKinnell's. Ladies don't fail to
 see these goods.

FIRE.—On Wednesday morning
 about 4 o'clock a passenger coach stand-
 ing on the Midland track at this sta-
 tion was completely gutted by fire and
 all destroyed but the wheels, the fire
 originating from a coal stove at one
 end of the car, where the most dam-
 age was done. The coach has been
 undergoing repairs lately and had only
 the day before been turned out of the
 shops. Loss four or five thousand dol-
 lars. The firemen were on hand and
 put out the fire but at such an incon-
 venient hour it was some time before
 they arrived and the flames had made
 too much headway to be checked in a
 hurry.

THE MINES.—This is the heading
 of a series of articles in the Winnipeg
 Daily Press explaining the pro-
 gress, development and management of
 the Keewatin Mines and the Winnipeg
 Consolidated Gold Mine, which are
 very promising speculations. The
 articles are very ably written and the
 information in them clearly given but
 are rendered more interesting when we
 consider that the young author—Wil-
 lie Britton, eldest son of Mr. N. Brit-
 ton, one of our market buyers—is a
 former Uxbridge boy. We wish him
 all success in the calling he has adopt-
 ed.

One Thousand Pounds Prime Pork for Sale Cheap at D. H. McIntyre's.

EVERGREENS.—This is said to be the best season of the year to plant evergreens.

SELF-BINDERS are becoming quite common in this locality. Farmers find that even with their high price, money is saved by their use.

"MEN WITH IRON SHOES."—Dr. Wild will deliver this lecture in Port Perry to night, under the management of the C.M. Church there. Tickets 25c.

Ladies wishing to make the nicest cake of the season, cannot have it a success unless they try some of our Desiccated Coconut. 35c a lb. warranted pure, at D. H. McIntyre's.

ONE OF THE FEATURES of Mr. Hoover's concert, which takes place on the 28th, will be the rendition of Leonard's "Grand Fantasia Militaire" by the renowned German violinist, Jacobson.

COLLISIONS.—Engines No. 8 and 16 on the Midland collided near Unionville on Tuesday and Nos. 41 and 28 on the Port Perry branch. Extent of damage not known. No person seriously hurt.

REV. MR. MCKINNON will occupy the pulpit of the B. C. Church, Uxbridge, S.p. 16th and 23rd, at 6.30 p.m. The pastor, Rev. J. W. Cannon having an engagement in the west, for a few weeks.

TO GOOD BUTTER MAKERS.—Wanted—a car load of good butter. Toronto prices given for choice, not only on market days but every day. One cent extra for tub butter, two cents extra for pound rolls, at the market, Uxbridge. M. BRITTON.

Twelve Pounds (12 lbs.) of Fresh Turkish Prunes for \$1. D. H. McIntyre.

TRY IT.—We will send the JOURNAL to any address in America for the balance of this year for 25c, or for a year for \$1 with a premium of valuable horse book. Our subscribers might assist us by showing it to the neighbors of their neighborhood.

ence of his entertainments, and he will undoubtedly have a good audience on the 25th. The different views and other particulars are mentioned in the advertisement on the second page.

A petition to the Dominion Government for a grant of money to assist a polar expedition on behalf of Commander Cheyne was forwarded from Uxbridge last year numerous signed by villagers and residents of Toronto and Montreal, but was ruled out by the Speaker of the House on the ground that it should come through a member of the government.

Personals.

Mrs. D. Morgan has been visiting in Whitby.

Mrs. Breea and family have returned from Arthur.

Miss Umphrey has returned from the North-West.

Mr. R. W. Johnston has returned from a short visit to Guelph.

Mrs. Brethur and daughter, of Uxbridge, are visiting in Toronto.

W. H. Vyvyan and family have been spending a week in Midland.

Mrs. E. W. Groome, of St. Catharines, is visiting friends in Uxbridge.

Mr. C. H. Nix has been visiting for a week in Bracebridge, Meaford, Collingwood, Orillia, &c.

Mrs. Daniel Smith, of Vroominton, has been visiting at Mr. R. Oxtoby's for a couple of weeks.

Mr. J. A. McGillivray returned home from Manitoba on Monday, looking improved by the trip.

Mr. Geo. Abrams, son of Mr. Chas. Abrams, who formerly lived here, is visiting in Scott at his uncle's, Mr. Geo. Abrams'.

Rev. Mr. Hunt, of East Clemens, N. Y., is visiting at Mr. Stickney's. Miss Wyckoff, of the same place, is staying at Mr. Stickney's and attending the High School.

Mrs. Hemphill and granddaughter have been visiting her son, Mr. Jno. P. Hemphill at Bradford. Mr. J. P. returned with them and will spend a week or two at home here.

Commander Cheyne, while in Ottawa, visited the Gloucester St. Convent, where he was very kindly received by the Mother Superior. While there he was asked to address the young ladies, but, knowing the small pleasure an address generally is to young people, he offered to give them an entertainment instead and sent to Uxbridge for his views. They duly arrived and, with some of the scholars to furnish music, all spent a very pleasant evening lasting till near midnight. The
