IN CONNECTION WITH THE GRAND TRUNK RAILWAY.

The ALLAN, DOMINION and BEAVER OCEAN LINES sail between Quebec and Liverpool; also the ROSS and TEMPERLEY LINES to London; ALLAN and DONALDSON CLYDE LINES to Glasgow, and GREAT WESTERN STEAMSHIP LINE to Avonmouth Dock near Bristol, during the Summer Season, and from and to Portland or Halifax during the Winter Season.

Ocean Steamships of the above named Lines connect weekly at Portland or Halifax (during the winter season), and at Quebec (during the summer season).

## To Emigrants and Settlers.

### MANITOBA AND THE NORTHWEST TERRITORIES.

The wheat lands of Manitoba, the future granary of Europe, are drawing large bodies of emigrants daily from the Eastern and other States. The Grand Trunk Railway, with its powerful and direct connections, and extensive and continuous through line, is the favorite route, and can be relied upon. The very best rates will be quoted for freight, passage, live stock, effects, and extra baggage, for emigrant parties; also, for individual emigrants. Applications for information should be made to the Company's Agents, or to the General Passenger Agent.

### KANSAS, TEXAS, ARKANSAS, COLORADO AND CALIFORNIA.

The Grand Trunk Railway has deservedly gained the reputation of being an exceptionally desirable route for bodies of emigrant settlers. Special attention has been paid to this business, both as regards cars, train service, accommodations en route, and instructions to employes to treat parties and holders of our Special Emigrant Through Tickets with equal courtesy and attention to first class passengers.

The Grand Trunk is steel-railed, rapid, has a continuously connected train service over a great extent of main line, under skilled supervision, and is by all conceded to be the true route for the emigrant to take to the Far West.

Through tickets are on sale all over the route for Western points. New extensions are promptly included, and full information furnished on application.

COMMUTATION TICKETS, valid for passage between two given stations on the line for a given number of single journey rides, from two per week and upwards, can be obtained upon application to the General Passenger Agent, commutation rates varying proportionately for occasional and constant traffic. Proportionate prices will be quoted to allow two rides per week or more, for from four up to fifty-two weeks.

### Tourist Arrangements.

A most attractive programme of tours has been arranged for the season of 1880, containing all the new features which a constantly varying and increasing tourist travel demands.

The Pullman Palace Cars of the Grand Trunk Railway and Steamers of the Richelieu and Royal Mail Line connect during the season of pleasure and tourist travel at Kingston, and afford first class facilities, with modern improvements, for all those desirous of making the St. Lawrence trip from Niagara Falls to Toronto, Toronto to Kingston, and from Kingston to Montreal.

**Round Trip Tickets.**—White Mountain, Gulf Ports, Lower Province, Seaside, Lakes Champlain and George, and Saguenay river tours, either individually or in combination, affording a very choice selection of trips, of the most attractive character on the continent, are at the disposal of the public through the Agents of the Company in all the principal cities of the United States and Canada.

# GRAND TRUNK RAILWAY OF CANADA,

AND THE  
CANADIAN LINES OF OCEAN STEAMSHIPS.

The Great Canadian Highway to Europe. The Shortest. The Coolest. The Best.

The Grand Trunk Railway Company of Canada begs to call the attention of shippers and exporters of Butter, Cheese, Provisions, etc., to its superior facilities, and the advantages possessed by its route and connections over all others.

1st. For perishable freight double-lined and double-roofed ventilated cars will be supplied, and will be iced in transit if necessary.

2nd. The route being along the north banks of Lake Ontario and the River St. Lawrence, the benefit of a continual current of cool air is always available. The cars, on arrival at Montreal, are run alongside the steamers, and the contents promptly transferred under deck. The steamships go to sea through the Gulf of St. Lawrence and the Straits of Belle Isle, thence passing the north coast of Ireland, thereby avoiding the warm waters of the Gulf Stream.

3rd. There are no bonding charges or customs annoyances by this Canadian route.

4th. Every possible attention is given to traffic to insure prompt shipment and careful handling.

5th. Rates of Insurance are guaranteed as low as by any other route, from May 15th to October 1st in each year.

Through Rates and Bills of Lading for Flour, Grain, Provisions, etc., may be had on application to the agents of the
